

Guide to Provisions Relevant to Automated Driving

This guide is page-aligned with the Chinese source and both full translations. Every guide page corresponds to the same PDF page in those documents and shows the original Chinese printed page number.

Location	Aligned PDF pages	Chinese printed pages
Core automated-driving chapter	30-32	36-38
Automated-driving comparison appendix	97-100	103-106
Total pages in every delivered document	137	7-143

How to use this guide

- Open the same PDF page number in the English-only or bilingual edition.
- Use the Chinese printed page number when citing or checking the supplied Chinese source.
- Core automated-driving provisions are on PDF pages 30-32; their comparison-appendix entries are on PDF pages 97-100.
- General terminology uses 'crash' or 'incident'; 'accident' is retained only in formal statutory names.

Article headings on aligned source page 1: 1, 2, 3, 4, 5

Aligned PDF page 2 / Chinese printed page 8

RELATED GENERAL PROVISIONS

Technology and research

Article 8 supports road-safety research and advanced management methods, technologies, and equipment.

Source-page contents	Article headings beginning on this page
Revision draft	6, 7, 8, 9

Navigation notes

- These rules may apply alongside the special automated-driving chapter.
- Article 95 returns vehicles to the ordinary regime when automation is inactive or only driver assistance is used.

Aligned PDF page 3 / Chinese printed page 9

RELATED GENERAL PROVISIONS

Vehicle standards, registration, inspection, recall, and insurance

Articles 10-22 provide the baseline vehicle-entry and safety regime that operates alongside the special automated-driving chapter.

Source-page contents	Article headings beginning on this page
Revision draft	10, 11, 12

Navigation notes

- These rules may apply alongside the special automated-driving chapter.
- Article 95 returns vehicles to the ordinary regime when automation is inactive or only driver assistance is used.

Aligned PDF page 4 / Chinese printed page 10

RELATED GENERAL PROVISIONS

Vehicle standards, registration, inspection, recall, and insurance

Articles 10-22 provide the baseline vehicle-entry and safety regime that operates alongside the special automated-driving chapter.

Source-page contents	Article headings beginning on this page
Revision draft	13

Navigation notes

- These rules may apply alongside the special automated-driving chapter.
- Article 95 returns vehicles to the ordinary regime when automation is inactive or only driver assistance is used.

Aligned PDF page 5 / Chinese printed page 11

RELATED GENERAL PROVISIONS

Vehicle standards, registration, inspection, recall, and insurance

Articles 10-22 provide the baseline vehicle-entry and safety regime that operates alongside the special automated-driving chapter.

Source-page contents	Article headings beginning on this page
Revision draft	14, 15, 16, 17

Navigation notes

- These rules may apply alongside the special automated-driving chapter.
- Article 95 returns vehicles to the ordinary regime when automation is inactive or only driver assistance is used.

Aligned PDF page 6 / Chinese printed page 12

RELATED GENERAL PROVISIONS

Vehicle standards, registration, inspection, recall, and insurance

Articles 10-22 provide the baseline vehicle-entry and safety regime that operates alongside the special automated-driving chapter.

Source-page contents	Article headings beginning on this page
Revision draft	12, 18

Navigation notes

- These rules may apply alongside the special automated-driving chapter.
- Article 95 returns vehicles to the ordinary regime when automation is inactive or only driver assistance is used.

Aligned PDF page 7 / Chinese printed page 13

RELATED GENERAL PROVISIONS

Vehicle standards, registration, inspection, recall, and insurance

Articles 10-22 provide the baseline vehicle-entry and safety regime that operates alongside the special automated-driving chapter.

Source-page contents	Article headings beginning on this page
Revision draft	19, 20, 21

Navigation notes

- These rules may apply alongside the special automated-driving chapter.
- Article 95 returns vehicles to the ordinary regime when automation is inactive or only driver assistance is used.

Aligned PDF page 8 / Chinese printed page 14

RELATED GENERAL PROVISIONS

Vehicle standards, registration, inspection, recall, and insurance

Articles 10-22 provide the baseline vehicle-entry and safety regime that operates alongside the special automated-driving chapter.

Source-page contents	Article headings beginning on this page
Revision draft	22, 23, 24

Navigation notes

- These rules may apply alongside the special automated-driving chapter.
- Article 95 returns vehicles to the ordinary regime when automation is inactive or only driver assistance is used.

Aligned PDF page 9 / Chinese printed page 15

RELATED GENERAL PROVISIONS

Driver licensing and fitness

Articles 26-33 are especially relevant when automation is inactive or only a driver-assistance function is in use.

Source-page contents	Article headings beginning on this page
Revision draft	25, 26, 27

Navigation notes

- These rules may apply alongside the special automated-driving chapter.
- Article 95 returns vehicles to the ordinary regime when automation is inactive or only driver assistance is used.

Aligned PDF page 10 / Chinese printed page 16

RELATED GENERAL PROVISIONS

Driver licensing and fitness

Articles 26-33 are especially relevant when automation is inactive or only a driver-assistance function is in use.

Source-page contents	Article headings beginning on this page

Aligned PDF page 30 / Chinese printed page 36

CORE AUTOMATED-DRIVING PROVISIONS

Core automated-driving provisions: scope, market entry, and activation

Articles 95-97 establish the special regime, define automated-driving vehicles and driver-assistance functions, require compliance testing, limit activation to designed operating conditions, and allocate responsibility for traffic violations.

Source-page contents	Article headings beginning on this page
Revision draft	95, 96, 97

Navigation notes

- Article 95: policy support and definitions; ordinary rules apply when automation is inactive or only assistance is used.
- Article 96: production/import compliance testing and controls against activation outside designed operating conditions.
- Article 97: the manufacturer or importer handles violations while automation is active and bears the burden of proving the function was unrelated.

Aligned PDF page 31 / Chinese printed page 37

CORE AUTOMATED-DRIVING PROVISIONS

Core automated-driving provisions: crash response, insurance, and data

Articles 97-100 address violation attribution, crash investigation, insurance, and vehicle-data governance.

Source-page contents	Article headings beginning on this page
Revision draft	98, 99, 100

Navigation notes

- Article 98: police data retrieval, evidence collection, qualified inspection/appraisal, and cooperation duties after a crash.
- Article 99: compulsory motor-vehicle traffic-accident liability insurance applies under State Council measures; commercial insurance is encouraged.
- Article 100: cybersecurity, data-security, personal-information, and regulatory data-sharing duties; imported vehicles require a domestic entrusted entity.

Aligned PDF page 32 / Chinese printed page 38

CORE AUTOMATED-DRIVING PROVISIONS

Core automated-driving provisions: risk controls, training, and implementation

Articles 100-103 complete the lifecycle framework for data, system risk, remedies, user readiness, and implementing measures.

Source-page contents	Article headings beginning on this page
Revision draft	101, 102, 103, 104

Navigation notes

- Article 101: joint risk assessment may lead to suspension, prohibition, recall, repair, replacement, return, or compensation.
- Article 102: owners and managers must receive training, manuals, emergency-response videos, and accurate operating-condition disclosures.
- Article 103: further measures will govern compliance testing, violation handling, and functional unmanned vehicles.

Aligned PDF page 33 / Chinese printed page 39

RELATED GENERAL PROVISIONS

Enforcement and legal responsibility

Articles 104-163 provide general administrative enforcement and penalties relevant where specific automated-driving measures do not displace them.

Source-page contents	Article headings beginning on this page
Revision draft	105, 106, 107, 108, 109, 110
